

Cleanse Foaming Formula with IT 623

Water, IT623 (Aloe Vera , Green Tea Extract, Citrus Extract, Apple Extract, Sugar Cane Extract , White Tea Extract) , Decyl Glucoside, Xanthan Gum, Essential Oils of Lavender and Geranium.

IT623 Ingredients:Aloe Vera (Aloe Barbadensis) - A plant botanical that is a humectant and emollient with anti-irritant and anti-microbial properties; hydrates, soothes, relieves pain and inflammation; promotes healing and helps prevent scars.

Apple Extract - A botanical ingredient that protects the skin from premature aging by reducing the skin-damaging effects of free radicals. It also provides skin-firming benefits, as it inhibits the action of elastase (an enzyme that breaks down skin).

Green Tea Extract - One of the richest sources of anti-oxidants that fight premature aging and wrinkling of the skin; protects skin cells from sun and protects skin cells from sun and environmental damage; tightens and calms skin.

Citrus Extract - A superb , natural exfoliant that does not dry or disrupt the natural acid mantle of the skin; an astringent, acidifier and pH adjuster.

Sugar Cane Extract - An important naturally occurring alpha hydroxy acid that has been shown to erase fine wrinkles in aging and sun damaged skin.

White Tea Extract - A powerful anti-oxidant that scavenges damaging free radicals to protect and help restore the health of the skin.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Decyl Glucoside - A natural extract from corn with exceptional foaming power; a safe alternative to SLS or other detergents; has superb cleansing abilities and yet is non-toxic, non-irritating and does not block pores.

Xanthan Gum - Helps to naturally thicken, emulsify and stabilize products.

Oil of Lavender - Promotes healing and circulation; prevents scarring; has antiseptic and anti-inflammatory properties; useful for acne prone and oily skin.

Oil of Geranium - Reduces inflammation and infection; delays wrinkling and signs of aging; normalizes oil production in the skin.

Cleanse Gentle Formula with IT716

Water, Green Tea Extract, White Tea Extract, Sunflower Oil, Decyl Glucoside, IT716 (Aloe Vera, Shea Butter, Algae Extract, Tocopherol, Ester Vitamin C) , Cetearyl Glucoside, Glyceryl Stearate, Glycerin, Cetearyl Alcohol, Cetearth-20, Xanthan Gum, Caprylic Acid, Glycine, Essential Oils of Jasmine, Lavender, Geranium, Peppermint, Lecithin.

IT716 Ingredients:

Aloe Vera (Aloe Barbadensis) - A plant botanical that is a humectant and emollient with anti-irritant and anti-microbial properties; hydrates, soothes, relieves pain and inflammation; promotes healing and helps prevent scars.

Shea Butter - A rich oil with anti-aging, anti-inflammatory, soothing, healing, and moisturizing properties.

Algae Extract - A source of beneficial mineral aid nutrients for the skin. Improves circulation and skin elasticity; tightens and tones the skin while providing hydration and detoxification benefits; reduces the appearance of wrinkles.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin.

Ester Vitamin C - A potent stabilized form of Vitamin C (Ascorbic Acid) that retains its beneficial effects longer than regular Vitamin C; has skin tightening and skin brightening effects; a powerful anti-oxidant that prevents aging of the skin; a natural preservative and pH adjuster.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Green Tea Extract - One of the richest sources of anti-oxidants that fight premature aging and wrinkling of the skin; protects skin cells from sun and environmental damage; tightens and calms skin.

White Tea Extract - A powerful anti-oxidant that scavenges damaging free radicals to protect and help restore the health of the skin.

Sunflower Oil - An essential oil highly beneficial for delicate and dry skin; contains high amounts of Vitamin E, a powerful antioxidant; has moisturizing and softening properties.

Decyl Glucoside - A natural extract from corn with exceptional foaming power; a safe alternative to SLS or other detergents; has superb cleansing abilities and yet is non-toxic, non-irritating and does not block pores.

Cetearyl Glucoside - A natural emulsifying wax extracted from corn and coconut; known to be mild and non-irritating. Glyceryl Stearate

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare products; provides excellent hydration and moisturization of the skin; synthetic glycerin can be irritating to the skin and should be avoided.

Cetearyl Alcohol - A natural alcohol from coconut that emulsifies, adds viscosity, and stabilizes.

Ceteareth-20 - A natural vegetable-based additive that adds viscosity; emulsifies and conditions. Xanthan Gum

Caprylic Acid - Used to balance the pH of the skin and scalp allowing better oxygenation and delivery of nutrients.

Glycine - An amino acid critical to healthy skin; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare products.

Essential Oils of Jasmine - Antiseptic and soothing; helps to moisturize dry, dehydrated, mature, or sensitive skin; regulates oil production

Lavender Oil - Promotes healing and circulation; prevents scarring; has antiseptic and anti-inflammatory properties; useful for acne prone and oily skin.

Geranium Oil - Reduces inflammation and infection; delays wrinkling and signs of aging; normalizes oil production in the skin.

Peppermint - Relieves itching, inflammation and has analgesic properties; soothing and cooling to the skin; a stimulating astringent that clears the complexion.

Lecithin - A rich source of critical building blocks for the skin, including essential fatty acids and phospholipids; extremely important for cellular health; a natural antioxidant and emollient.

Hydrate with IT527

Water, Sunflower Oil, IT527 (Shea Butter, Mango Butter, Cocoa Butter, Avocado Butter, Algae Extract, Methylsulfonmethane (MSM), DMAE), Glyceryl Stearate, Glycerin, Cetearyl Alcohol, Cetearth-20, Xanthan Gum, Tocopherol, Caprylic Acid, Glycine, Bitter Almond Oil, Lecithin.

IT527 Ingredients:

Shea Butter - A rich oil with anti-aging, anti-inflammatory, soothing, healing, and moisturizing properties.

Mango Butter - A great natural source of essential fatty acids, cold pressed from the seed kernel of the Mango tree; similar in color and texture to cocoa butter.

Cocoa Butter - Oil extracted from roasted cocoa nut seeds used to soften and lubricate the skin; used in place of synthetic waxes or artificial creams.

Avocado Butter - A butter created from the avocado fruit renowned for its ability to improve the moisture in skin while supplying critical essential fatty acids; softens rough, dry skin; a source of Vitamins A, D and E.

Algae Extract - A source of beneficial mineral aid nutrients for the skin. Improves circulation and skin elasticity; tightens and tones the skin while providing hydration and detoxification benefits; reduces the appearance of wrinkles.

Methylsulfonmethane (MSM) - Fights acne and inflammation, adds texture and decreases allergies.

DMAE (dimethylaminoethanol) - A skin firming agent; dramatically improves the appearance of sagging skin, while also boosting the effects of other anti-oxidants; promotes increased smoothness, brightness, firmness and less wrinkling.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Sunflower Oil - An essential oil highly beneficial for delicate and dry skin; contains high amounts of Vitamin E, a powerful antioxidant; has moisturizing and softening properties for the skin.

Glyceryl Stearate - A natural emulsifier rich in essential fatty acids.

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare and haircare products; provides excellent hydration and moisturization of the skin; synthetic glycerin can be irritating to the skin and should be avoided.

Cetearyl Alcohol - A natural alcohol from coconut that emulsifies, adds viscosity, and stabilizes.

Cetearth-20 - A natural vegetable-based additive that adds viscosity; emulsifies and conditions.

Xanthan Gum - Helps to naturally thicken, emulsify and stabilize products.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin.

Glycine - An amino acid critical to healthy skin and hair; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare and haircare products.

Bitter Almond Oil - Extracted from almonds and rich in essential fatty acids known to heal and moisturize the skin.

Lecithin - A rich source of critical building blocks for the skin, including essential fatty acids and phospholipids; extremely important for cellular health; a natural antioxidant and emollient.

Nourish with IT309

Water, Sunflower Oil, Grapeseed Oil, Glyceryl Stearate, Cetearyl Glucoside, Shea Butter, IT309 (Glycine, Caprylic Acid, Ester Vitamin C, Tocopherol, Hyaluronic Acid, Arginine, ATP, Alpha Lipoic Acid, CoQ10, DMAE, Retinyl Palmitate, Horse Chestnut, Niacinamide), Jojoba Oil, Glycerin, Methylsulfonmethane (MSM), Potassium Sorbate, Xanthan Gum, Borage Oil, Oat Beta Glucan, Panthenol, Bisabolol, Squalene, Allantoin, Lecithin, Tyrosine, Bitter Almond Oil.

IT309 Ingredients:

Glycine - An amino acid critical to healthy skin and hair; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare and haircare products.

Caprylic Acid - Used to balance the pH of the skin, allowing better oxygenation and delivery of nutrients.

Ester Vitamin C - A potent stabilized form of Vitamin C (Ascorbic Acid) that retains its beneficial effects longer than regular Vitamin C; has skin tightening and skin brightening effects; a powerful anti-oxidant that prevents aging of the skin; a natural preservative and pH adjuster.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin.

Hyaluronic Acid - A natural protein found in the skin that binds water and supports the retention of moisture; produced by the fermentation of yeast. **Arginine**

ATP (adenosine triphosphate) - Supplies all cellular oxygen and energy, critical for young, healthy, energized skin.

Alpha Lipoic Acid - A firming and tightening agent; promotes skin suppleness; helps improve the appearance of uneven texture and skin discoloration. It is a powerful antioxidant that is capable of working in both fat and water soluble areas of the cell, thereby boosting the efficacy of Vitamins A, C, E and other major anti-oxidants in the skin.

CoQ10 - A powerful anti-oxidant that neutralizes free radicals caused by sun and environmental exposure; defends the skin against further damage and premature aging.

DMAE (dimethylaminoethanol) - A skin firming agent; dramatically improves the appearance of sagging skin, while also boosting the effects of other anti-oxidants; promotes increased smoothness, brightness, firmness and less wrinkling.

Retinyl Palmitate - A Vitamin A derivative that improves the texture and tone of the skin; reduces the appearance of wrinkles; serves as an antioxidant and a skin conditioner.

Horse Chestnut - Strengthens blood vessels to protect against broken capillaries; reduces edema and inflammation; provides a significant amount of Proanthocyanidins, powerful anti-oxidants that provide superb protection from free radicals.

Niacinamide (B Vitamin) - Aids in skin clarity; fights acne and bacteria.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Sunflower Oil - An essential oil highly beneficial for delicate and dry skin and hair; contains high amounts of Vitamin E, a powerful antioxidant.

Grape Seed Oil - Oil that is cold-pressed from grape seeds and has a high linoleic content (an essential fatty acid); rich in powerful anti-oxidants that protect against the damaging effects of free radicals.

Glyceryl Stearate - A natural emulsifier rich in essential fatty acids.

Cetearyl Glucoside - A natural emulsifying wax extracted from corn and coconut; known to be mild and non-irritating.

Shea Butter - A rich oil with anti-aging, anti-inflammatory, soothing, healing, and moisturizing properties.

Joboba Oil - A natural oil derived from the desert Jojoba plant that is known to have extraordinary ability to retain moisture; highly moisturizing; helps skin look and feel soft.

Methylsulfonmethane (MSM) - Fights acne and inflammation, adds texture and decreases allergies.

Potassium Sorbate - A natural mold and yeast inhibitor.

Xanthan Gum - Helps to naturally thicken, emulsify and stabilize products.

Borage Oil - A good source of an essential omega-6 fatty acid (gamma linolenic acid); soothes damaged and irritated tissues; rich in healing emollients; helps to reduce redness.

Oat Beta Glucan - A complex carbohydrate found in the nutrient-rich bran portion of the oat; stimulates skin cell renewal; an excellent treatment for fine lines and wrinkles; retains moisture; reduces damage from UVA/UVB irradiation; stimulates collagen production.

Panthenol (Pro-vitamin B5) - Promotes wound healing; protects against sunburn and is a natural humectant, strengthener, and penetrating moisturizer; has moisture retention properties.

Bisabolol - Derived from chamomile; rich in soothing and healing antioxidants.

Squalene - Extracted from olives, provides moisture to the epidermal lipid layer of the skin; has unique emollient and nourishing properties.

Allantoin - Naturally derived from Comfrey root, a healing agent for skin wounds and ulcers. It speeds the growth of healthy tissue and cell repair, and is moisturizing, anti-irritating, and soothing.

Lecithin - A rich source of critical building blocks for the skin, including essential fatty acids and phospholipids; extremely important for cellular health; a natural antioxidant and emollient.

Tyrosine - An amino acid necessary for melanin production; a natural stabilizer

Bitter Almond Oil - Extracted from almonds and rich in essential fatty acids known to heal and moisturize the skin

Replenish Exfoliation Formula with IT908

Water, Sunflower Oil, Grapeseed Oil, Glyceryl Stearate, Shea Butter, IT908 (Ceramide 1, Ceramide 3, Ceramide 6, Phytosphingosine, Methylsulfonmethane (MSM), Caprylic Acid, Glycine, Ester Vitamin C, Tocopherol, Calophyllum Oil, Oat Beta Glucan, Retinyl Palmitate, Alpha Lipoic Acid), Aloe Vera, Cetearyl Glucoside, Jojoba Oil, Glycerin, Potassium Sorbate, Xanthan Gum, Hyaluronic Acid, Borage Oil, Panthenol, Bisabolol, Squalene, Allantoin, Lecithin.

IT908 Ingredients:

Ceramide 1, 3, 6 - Ceramides are key components of the skin's protective barrier and are responsible for maintaining moisture and hydration of the skin. Scientific studies indicate that a lack of natural ceramides can lead to skin abnormalities, such as eczema. Ceramide 1 helps strengthen skin; Ceramide 3 holds moisture in the skin; Ceramide 6 exfoliates and re-texturizes the skin. Combined, these ingredients are superb at creating younger, healthier appearing skin.

Phytosphingosine - Soothes skin and reduces redness associated with acne and rosacea; helps sensitive skin to combat environmental stress by keeping a healthy balance of microorganisms on the skin.

Methylsulfonmethane (MSM) - Fights acne and inflammation, adds texture and decreases allergies.

Caprylic Acid - Used to balance the pH of the skin and scalp allowing better oxygenation and delivery of nutrients. Adds moisture.

Glycine - An amino acid critical to healthy skin and hair; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare and haircare products.

Ester Vitamin C - A potent stabilized form of Vitamin C (Ascorbic Acid) that retains its beneficial effects longer than regular Vitamin C; has skin tightening and skin brightening effects; a powerful anti-oxidant that prevents aging of the skin; a natural preservative and pH adjuster.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin.

Calophyllum Oil - Cold-pressed from the fruit kernels of the Calophyllum tree of Madagascar ; valuable in fighting inflammatory problems, such as acne and rosacea; has phagocytosis-stimulating qualities, which helps the body to eliminate unwanted cellular debris from the skin.

Oat Beta Glucan - A complex carbohydrate found in the nutrient-rich bran portion of the oat; stimulates skin cell renewal; an excellent treatment for fine lines and wrinkles; retains moisture; reduces damage from UVA/UVB irradiation; stimulates collagen production.

Retinyl Palmitate - A Vitamin A derivative that improves the texture and tone of the skin; reduces the appearance or wrinkles; serves as an antioxidant and a skin conditioner.

Alpha Lipoic Acid - A firming and tightening agent; promotes skin suppleness; helps improve the appearance of uneven texture and skin discoloration. It is a powerful antioxidant that is capable of working in both fat and water soluble areas of the cell, thereby boosting the efficacy of Vitamins A, C, E and other major anti-oxidants in the skin.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Sunflower Oil - An essential oil highly beneficial for delicate and dry skin; contains high amounts of Vitamin E, a powerful antioxidant; has moisturizing and softening properties.

Grape Seed Oil - Oil that is cold-pressed from grape seeds and has a high linoleic content (an essential fatty acid); rich in powerful anti-oxidants that protect against the damaging effects of free radicals.

Glyceryl Stearate - A natural emulsifier rich in essential fatty acids.

Shea Butter - A rich oil with anti-aging, anti-inflammatory, soothing, healing, and moisturizing properties.

Aloe Vera (Aloe Barbadensis) - A plant botanical that is a humectant and emollient with anti-irritant and anti-microbial properties; hydrates, soothes, relieves pain and inflammation; promotes healing and helps prevent scars.

Cetearyl Glucoside - A natural emulsifying wax extracted from corn and coconut; known to be mild and non-irritating.

Joboba Oil - A natural oil derived from the desert Jojoba plant that is known to have extraordinary ability to retain moisture; highly moisturizing; helps skin look and feel soft. Helps create a healthy scalp.

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare and haircare products; provides excellent hydration and moisturization of the skin; synthetic glycerin can be irritating to the skin and should be avoided.

Potassium Sorbate - A natural mold and yeast inhibitor.

Xanthan Gum - Helps to naturally thicken, emulsify and stabilize products.

Hyaluronic Acid - A natural protein found in the skin that binds water and supports the retention of moisture; produced by the fermentation of yeast.

Borage Oil - A good source of an essential omega-6 fatty acid (gamma linolenic acid); soothes damaged and irritated tissues; rich in healing emollients; helps to reduce redness.

Panthenol (Pro-vitamin B5) - Promotes wound healing; protects against sunburn and is a natural humectant, strengthener, and penetrating moisturizer; has moisture retention properties.

Bisabolol - Derived from chamomile; rich in soothing and healing antioxidants.

Squalene - Extracted from olives, provides moisture to the epidermal lipid layer of the skin; has unique emollient and nourishing properties.

Allantoin - Naturally derived from Comfrey root, a healing agent for skin wounds and ulcers. It speeds the growth of healthy tissue and cell repair, and is moisturizing, anti-irritating, and soothing.

Lecithin - A rich source of critical building blocks for the skin, including essential fatty acids and phospholipids; extremely important for cellular health; a natural antioxidant and emollient.

Tone Rebalancing Formula with IT128

Water, Aloe Vera, Hamamelis Virginiana, IT128 (Hyaluronic Acid, Green Tea Extract, Citrus Extract, Apple Extract, Sugar Cane Extract, Copper Aspartate, Magnesium Aspartate, Zinc Aspartate, DMAE, Retinyl Palmitate, Ester Vitamin C, Tocopherol), Polysorbate 20, Glycerin, Essential Oils of Jasmine, Lavender, and Geranium, Helioginol (Sunflower Seed Cake), Squalene.

IT128 Ingredients:

Hyaluronic Acid - A natural protein found in the skin that binds water and supports the retention of moisture; produced by the fermentation of yeast.

Green Tea Extract - One of the richest sources of anti-oxidants that fight premature aging and wrinkling of the skin; protects skin cells from sun and environmental damage; tightens and calms skin.

Citrus Extract - A superb, natural exfoliant that does not dry or disrupt the natural acid mantle of the skin; an astringent, acidifier and pH adjuster.

Apple Extract - A botanical ingredient that protects the skin from premature aging by reducing the skin-damaging effects of free radicals. It also provides skin-firming benefits as it inhibits the action of elastase (an enzyme that breaks down skin).

Sugar Cane Extract - An important naturally occurring alpha hydroxy acid that has been shown to erase fine wrinkles in aging and sun damaged skin.

Copper Aspartate - Copper is an essential ingredient needed for the formation of collagen that tightens and firms the skin; assists in the promotion of consistent skin pigmentation.

Magnesium Aspartate - A chelated form of an essential mineral needed for energy production in the skin.

Zinc Aspartate - An essential mineral for maintaining the healthy immune function of the skin; assists in collagen and protein synthesis; aids in the prevention of infections and the repair and healing of cells.

DMAE (dimethylaminoethanol) - A skin firming agent; dramatically improves the appearance of sagging skin, while also boosting the effects of other anti-oxidants; promotes increased smoothness, brightness, firmness and less wrinkling.

Retinyl Palmitate - A Vitamin A derivative that improves the texture and tone of the skin; reduces the appearance or wrinkles; serves as an antioxidant and a skin conditioner.

Ester Vitamin C - A potent stabilized form of Vitamin C (Ascorbic Acid) that retains its beneficial effects longer than regular Vitamin C; has skin tightening and skin brightening effects; a powerful anti-oxidant that prevents aging of the skin; a natural preservative and pH adjuster.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin and hair.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Aloe Vera (Aloe Barbadensis) - A plant botanical that is a humectant and emollient with anti-irritant and anti-microbial properties; hydrates, soothes, relieves pain and inflammation; promotes healing and helps prevent scars.

Hamamelis Virginiana (Witch Hazel) - A natural antiseptic and anti-fungal agent that acts as an excellent astringent; reduces the appearance of enlarged pores; has a sedative or calming effect for relief of minor skin irritations.

Polysorbate 20 - A natural fatty acid used as an emollient and stabilizer; has a soothing effect on the skin.

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare and haircare products; provides excellent hydration and moisturization of the skin and hair; synthetic glycerin can be irritating to the skin and should be avoided.

Essential Oil of Jasmine - Antiseptic and soothing; helps to moisturize dry, dehydrated or mature skin; regulates oil production.

Essential Oil of Lavender - Promotes healing and circulation; prevents scarring; has antiseptic and anti-inflammatory properties; useful for acne prone and oily skin.

Essential Oil of Geranium - Reduces inflammation and infection; delays wrinkling and signs of aging; normalizes oil production in the skin.

Heliogenol (Sunflower Seed Cake) - Protects against environmental free radicals and inhibits UVA / UVB photo oxidation from the sun; repairs damage from free radical oxidation.

Squalene - Extracted from olives, provides moisture to the epidermal lipid layer of the skin; has unique emollient and nourishing properties.

Tone Anti-Oxidant Formula with IT713

Water, Aloe Vera, IT713 (Wheat Protein, Hyaluronic Acid, Copper Aspartate, Magnesium Aspartate, Zinc Aspartate, DMAE, Tocopherol, Retinyl Palmitate, Ester Vitamin C), Polysorbate 20, Glycerin, Essential Oil of Cassia, Vanilla and Clove, Heliogenol (Sunflower Seed Cake), Squalene.

IT713 Ingredients:

Wheat Protein - Energizes the skin's natural metabolism; stimulates skin regeneration; has strong firming qualities. A source of amino acids that strengthens the hair; prevents split ends and supplies moisture, flexibility and elasticity.

Hyaluronic Acid - A natural protein found in the skin that binds water and supports the retention of moisture; produced by the fermentation of yeast.

Copper Aspartate - Copper is an essential ingredient needed for the formation of collagen that tightens and firms the skin; assists in the promotion of consistent skin pigmentation.

Magnesium Aspartate - A chelated form of an essential mineral needed for energy production in the skin.

Zinc Aspartate - An essential mineral for maintaining the healthy immune function of the skin; assists in collagen and protein synthesis; aids in the prevention of infections and the repair and healing of cells.

DMAE (dimethylaminoethanol) - A skin firming agent; dramatically improves the appearance of sagging skin, while also boosting the effects of other anti-oxidants; promotes increased smoothness, brightness, firmness and less wrinkling.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin and hair.

Retinyl Palmitate - A Vitamin A derivative that improves the texture and tone of the skin; reduces the appearance or wrinkles; serves as an antioxidant and a skin conditioner.

Ester Vitamin C - A potent stabilized form of Vitamin C (Ascorbic Acid) that retains its beneficial effects longer than regular Vitamin C; has skin tightening and skin brightening effects; a powerful anti-oxidant that prevents aging of the skin; a natural preservative and pH adjuster.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Aloe Vera (Aloe Barbadensis) - A plant botanical that is a humectant and emollient with anti-irritant and anti-microbial properties; hydrates, soothes, relieves pain and inflammation; promotes healing and helps prevent scars.

Polysorbate 20 - A natural fatty acid used as an emollient and stabilizer; has a soothing effect on the skin.

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare and haircare products; provides excellent hydration and moisturization of the skin and hair; synthetic glycerin can be irritating to the skin and should be avoided.

Essential Oil of Cassia - Soothes, heals, and reduces excess oil. Has anti-microbial and astringent properties. Should be blended with cloves to benefit the skin.

Essential Oil of Clove - Antiseptic, soothes, and heals the skin when combined with Cassia.

Essential Oil of Vanilla - Nourishes, moisturizes, and soothes dry, irritated skin.

Heliogenol (Sunflower Seed Cake) - Protects against environmental free radicals and inhibits UVA / UVB photo oxidation from the sun; repairs damage from free radical oxidation.

Squalene - Extracted from olives, provides moisture to the epidermal lipid layer of the skin; has unique emollient and nourishing properties.

Revive with IT414

Water, Capric/Caprylic Triglyceride, IT414 (Glycine, Caprylic Acid, Hydrolyzed Rice Bran Protein, Soy Peptides, Oxido Reductases, Ceramide 1, Ceramide 3, Ceramide 6, Cholesterol, Phytosphygosine, Hydrolyzed Vegetal Protein, Serine, Arginine, Proline, Locust Bean Gum, Hydrolyzed Casein, Tocopherol, Vitamin K, White Tea Extract, Green Tea Extract, Ester Vitamin C, Retinyl Palmitate), Cetearyl Glucoside, Glyceryl Stearate, Cetearyl Alcohol, Cetearth-20, Glycerin, Shea Butter, Jojoba Oil, Algae Extract, Xanthan Gum, Hyaluronic Acid, Potassium Sorbate, Borage Oil, Beta Glucan, Extracts of Malva Sylvestris (Mallow), Mentha Piperita (Peppermint) Leaf, Primula Veris (Primrose), Alchemilla Vulgaris (Lady's Mantle), Veronica Officinalis (Speedwell), Melissa Officinalis Leaf

(Balm), and Achillea Millefolium (Yarrow), Lecithin.

IT414 Ingredients:

Glycine - An amino acid critical to healthy skin and hair; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare and haircare products.

Caprylic Acid - Used to balance the pH of the skin and scalp allowing better oxygenation and delivery of nutrients. Adds moisture to the hair and prevents split ends by removing dead cells.

Hydrolyzed Rice Bran Protein - A natural plant derived protein that provides superior anti-oxidant properties and essential fatty acids.

Soy Peptides - Rich in powerful anti-oxidants that protect against premature aging; strengthens the immune function of the skin. Oxido Reductases

Ceramide 1, 3, 6 - Ceramides are key components of the skin's protective barrier and are responsible for maintaining moisture and hydration of the skin. Scientific studies indicate that a lack of natural ceramides can lead to skin abnormalities, such as eczema. Ceramide 1 helps strengthen skin; Ceramide 3 holds moisture in the skin; Ceramide 6 exfoliates and re-texturizes the skin. Combined, these ingredients are superb at creating younger, healthier appearing skin.

Phytosphygosine - Soothes skin and reduces redness associated with acne and rosacea; helps sensitive skin to combat environmental stress by keeping a healthy balance of microorganisms on the skin.

Hydrolyzed Vegetal Protein - Proteins are of primary importance as building blocks for our body; vegetable proteins are vegetable-based and are a source of both amino acids and essential fatty acids.

Serine - A powerful natural hydro-fixer that acts in perfect affinity with the skin to fix and retain water.

Arginine - An amino acid that aids in exfoliation, increased cell turnover, skin firming and relaxation of wrinkles; reduces hyper-pigmentation and inflammation; has re-hydrating and skin normalizing effects; improves circulation and blood flow to the skin.

Proline - An amino acid that is a critical building block for collagen; strengthens the cell membrane.

Locust Bean Gum - A natural stabilizer and thickener.

Hydrolyzed Casein - A mixture of essential fatty acids obtained from coconut oil and casein, a complex combination of several proteins, phosphorus, and calcium; provides amino acid building blocks.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin and hair.

Vitamin K - Improves the appearance of dark circles and puffiness around the eyes; reduces bruising on the face.

White Tea Extract - A powerful anti-oxidant that scavenges damaging free radicals to protect and help restore the health of the skin.

Green Tea Extract - One of the richest sources of anti-oxidants that fight premature aging and wrinkling of the skin; protects skin cells from sun and environmental damage; tightens and calms skin.

Ester Vitamin C - A potent stabilized form of Vitamin C (Ascorbic Acid) that retains its beneficial effects longer than regular Vitamin C; has skin tightening and skin brightening effects; a powerful anti-oxidant that prevents aging of the skin; a natural preservative and pH adjuster.

Retinyl Palmitate - A Vitamin A derivative that improves the texture and tone of the skin; reduces the appearance or wrinkles; serves as an antioxidant and a skin conditioner.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Capric/Caprylic Triglyceride - A rich fatty acid made from natural sources by combining glycerin with caprylic acid and capric acid; a superb emollient and moisturizer; softens and smoothes the skin by attracting moisture.

Cetearyl Glucoside - A natural emulsifying wax extracted from corn and coconut; known to be mild and non-irritating.

Cetearyl Glucoside - A natural emulsifying wax extracted from corn and coconut; known to be mild and non-irritating.

Cetearyl Alcohol - A natural alcohol from coconut that emulsifies, adds viscosity, and stabilizes.

Ceteareth-20 - A natural vegetable-based additive that adds viscosity; emulsifies and conditions.

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare and hair care products; provides excellent hydration and moisturization of the skin and hair; synthetic glycerin can be irritating to the skin and should be avoided.

Shea Butter - A rich oil with anti-aging, anti-inflammatory, soothing, healing, and moisturizing properties.

Joboba Oil - A natural oil derived from the desert Jojoba plant that is known to have extraordinary ability to retain moisture; highly moisturizing; helps skin and hair look and feel soft. Helps create a healthy scalp.

Algae Extract - A source of beneficial mineral and nutrients for the skin. Improves circulation and skin elasticity; tightens and tones the skin while providing hydration and detoxification benefits; reduces the appearance of wrinkles.

Xanthan Gum - Helps to naturally thicken, emulsify and stabilize products.

Hyaluronic Acid - A natural protein found in the skin that binds water and supports the retention of moisture; produced by the fermentation of yeast.

Potassium Sorbate - A natural mold and yeast inhibitor.

Borage Oil - A good source of an essential omega-6 fatty acid (gamma linolenic acid); soothes damaged and irritated tissues; rich in healing emollients; helps to reduce redness.

Beta Glucan - Builds the immune defense system of the skin and helps fight foreign intruders; promotes healing.

Extracts of Malva Sylvestris (Mallow) - Soothes and reduces irritation; softens dry skin.

Mentha Piperita (Peppermint) Leaf - Relieves itching, inflammation and has analgesic properties; soothing and cooling to the skin; a stimulating astringent that clears the complexion.

Primula Veris (Primrose) - A natural oil extracted from the Evening Primrose plant; maintains the elasticity of the skin; has moisturizing, nourishing, oil regulating and restructuring properties due to its high content of essential fatty acids.

Alchemilla Vulgaris (Lady's Mantle) - An herb with anti-microbial properties; scavenges free radicals; blocks elastase (an enzyme that breaks down skin) and fights signs of aging; has astringent and antiseptic properties because of its tannin content; also used for wound healing.

Veronica Officinalis (Speedwell) - Used to calm the skin and relieve chronic skin problems.

Melissa Officinalis Leaf (Balm) - A plant extract known for its soothing and healing properties.

Achillea Millefolium (Yarrow) - Has natural soothing and healing properties for the skin.

Lecithin - A rich source of critical building blocks for the skin, including essential fatty acids and phospholipids; extremely important for cellular health; a natural antioxidant and emollient.

Shimmer Nourishing Shampoo with IT807

Water, Infusion Of Organic Herbs of Orange Flowers, Lavender, and Lemongrass, Aloe Vera, Olefin Sulfonate, Cocamidopropyl Betaine, Sea Salt, Glycol Stearate, Grapefruit Oil, Bergamot Oil, IT807 (Wheat Amino Acids, Panthenol, Tocopherol, Caprylic Acid, Glycine), Sunflower Oil, Jojoba Oil.

IT807 Ingredients:

Wheat Amino Acids - Provides stability, shine and brightness to the hair; allows hair to be combed through easily and prevents split ends.

Panthenol (Pro-vitamin B5) - Promotes wound healing; protects against sunburn and is a natural humectant, strengthener, and penetrating moisturizer; thickens to protect and repair the hair; has moisture retention properties; makes hair easier to comb and reduces split ends; improves the condition of damaged hair and provides shine.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin and hair.

Caprylic Acid - Used to balance the pH of the skin and scalp allowing better oxygenation and delivery of nutrients. Adds moisture to the hair and prevents split ends by removing dead cells.

Glycine - An amino acid critical to healthy skin and hair; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare and haircare products.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Herbs of Lavender - Strengthens hair and gives it shine. Stimulates circulation. Has cell repair and regeneration qualities. Regulates oil production.

Herbs of Lemongrass - Creates manageable hair and a healthy scalp. Used for cleansing hair and adding shine.

Herbs of Orange Flowers - Imparts highlights, shines and luster to the hair and stimulates the scalp; helps to create body and fullness for the hair.

Aloe Vera (Aloe Barbadensis) - A plant botanical that is a humectant and emollient with anti-irritant and anti-microbial properties; hydrates, soothes, relieves pain and inflammation; promotes healing and helps prevent scars.

Olefin Sulfate - A gentle cleanser derived from coconut that is free from sodium lauryl sulfate; has moisturizing properties; gentle on the scalp to keep it healthy and vital to prevent thinning of the hair.

Cocoa Midopipyl Betaine - A gentle foam and cleanser derived from coconut that does not irritate the scalp; removes dirt and oil from the hair.

Sea Salt - Stimulates greater circulation to the scalp; deep cleanses the scalp; moisturizes and revitalizes the hair.

Glycol Stearate - A natural vegetable emulsifier that allows the addition of healing oils to haircare products to create moisture and volume.

Grapefruit Oil - Balances oiliness of the hair and stimulates the scalp; has anti-oxidant and sun protection benefits.

Bergamot Oil - Helps with preventing dry, flaky scalp conditions causing dandruff. Bergaptene-free to prevent sensitivity to sunlight.

Sunflower Oil - An essential oil highly beneficial for delicate and dry skin and hair; contains high amounts of Vitamin E, a powerful antioxidant; has moisturizing and softening properties for the hair.

Joboba Oil - A natural oil derived from the desert Jojoba plant that is known to have extraordinary ability to retain moisture; highly moisturizing; helps skin and hair look and feel soft. Helps create a healthy scalp.

Shine Reparative Conditioner with IT101

Water, Infusion Of Organic Herbs of Orange Flowers, Lavender, and Lemon-grass, Aloe Vera, Behentrimonium Methosulphate, Vegetable Glycerin, Grapefruit Oil, Bergamot Oil, Stearalkonium Chloride, IT101 (Wheat Protein, Wheat Amino Acids, Tocopherol, Panthenol, Caprylic Acid, Glycine), Sunflower Oil, Cetearyl Alcohol, Cetearth-20, Jojoba Oil, Lecithin.

IT101 Ingredients:

Wheat Protein - Energizes the skin's natural metabolism; stimulates skin regeneration; has strong firming qualities. A source of amino acids that strengthens the hair; prevents split ends and supplies moisture, flexibility and elasticity.

Wheat Amino Acids - Provides stability, shine and brightness to the hair; allows hair to be combed through easily and prevents split ends.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin and hair.

Panthenol (Pro-vitamin B5) - Promotes wound healing; protects against sunburn and is a natural humectant, strengthener, and penetrating moisturizer; thickens to protect and repair the hair; has moisture retention properties; makes hair easier to comb and reduces split ends; improves the condition of damaged hair and provides shine.

Caprylic Acid - Used to balance the pH of the skin and scalp allowing better oxygenation and delivery of nutrients. Adds moisture to the hair and prevents split ends by removing dead cells.

Glycine - An amino acid critical to healthy skin and hair; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare and haircare products.

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Herbs of Lemongrass - Creates manageable hair and a healthy scalp. Used for cleansing hair and adding shine.

Herbs of Lavender - Strengthens hair and gives it shine. Stimulates circulation. Has cell repair and regeneration qualities. Regulates oil production.

Herbs of Orange Flowers - Imparts highlights, shines and luster to the hair and stimulates the scalp; helps to create body and fullness for the hair.

Aloe Vera (Aloe Barbadensis) - A plant botanical that is a humectant and emollient with anti-irritant and anti-microbial properties; hydrates, soothes, relieves pain and inflammation; promotes healing and helps prevent scars.

Benentrimonium Methisulfate - A natural conditioner derived from vegetable sources that conditions and detangles hair and reduces static electricity. Rebuilds damaged hair by penetrating and coating the hair shaft.

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare and haircare products; provides excellent hydration and moisturization of the skin and hair; synthetic glycerin can be irritating to the skin and should be avoided.

Grapefruit Oil - Balances oiliness of the hair and stimulates the scalp; has anti-oxidant and sun protection benefits.

Bergamot Oil - Helps with preventing dry, flaky scalp conditions causing dandruff. Bergaptene-free to prevent sensitivity to sunlight.

Stearalkonium Chloride - A natural conditioning agent from vegetable sources that creates volume and fullness to the hair.

Protect Reflective Sunscreen, SPF 18, with IT007

Active Ingredient: Titanium Dioxide 6% Inactive Ingredients: Water, Cyclo-methicone and Dimethicone Copolymer, Capric/Caprylic Triglyceride, Glyceryl Stearate, Cetearyl Glucoside, Glycerin, IT007 (Caprylic Acid, Glycine, Tocopherol, Retinyl Palmitate, Pomegranate Extract, Green Tea Extract, White Tea Extract, Magnesium Ascorbyl Phosphate, Echinacea Extract, Chamomile Extract), Potassium Sorbate, Xanthan Gum.

IT007 Ingredients:

Caprylic Acid - Used to balance the pH of the skin and scalp allowing better oxygenation and delivery of nutrients. Adds moisture to the hair and prevents split ends by removing dead cells.

Glycine - An amino acid critical to healthy skin and hair; helps to trigger the release of oxygen to the energy-requiring cell making process; adjusts pH of skincare and haircare products.

Tocopherol - A combination of Vitamin E compounds known for their strong and beneficial anti-oxidant capabilities; neutralizes free radicals and stabilizes cell membranes; can help decrease the effects of psoriasis, and may help in reducing the risk of skin cancer; moisturizes and conditions the skin and hair.

Retinyl Palmitate - A Vitamin A derivative that improves the texture and tone of the skin; reduces the appearance or wrinkles; serves as an antioxidant and a skin conditioner.

Pomegranate Extract - Boosts SPF protection; provides age-defying ellagic acid and phenolic compounds; has powerful anti-oxidants; soothing and rejuvenating benefits, including reducing fine lines and wrinkles.

Green Tea Extract - One of the richest sources of anti-oxidants that fight premature aging and wrinkling of the skin; protects skin cells from sun and environmental damage; tightens and calms skin.

White Tea Extract - A powerful anti-oxidant that scavenges damaging free radicals to protect and help restore the health of the skin.

Magnesium Ascorbyl Phosphate - A stabilized form of Vitamin C that easily penetrates the skin. Has strong anti-oxidant properties protecting against the sun.

Echinacea Extract - Has calming, healing properties. Helps heal burned skin, abrasions, wounds, and acne. A strong anti-oxidant protection against the sun.

Chamomile Extract - Imparts luster to hair and prevents frizz. A rich source of vital minerals for the hair. Has anti-inflammation, analgesic and antiseptic capabilities. Calming and sustaining to the skin.

Active Ingredient:

Titanium Dioxide - A reflective sunscreen that protects against both types of harmful sunrays - UVA and UVB; has natural anti-inflammatory properties; protects from redness and irritation and seals in moisture; has no risk of irritation as a sun protectant.

Inactive Ingredients:

Water - The water used in our products is steam distilled and purified with the highest integrity and quality to allow our products to be free from harmful preservatives and chemicals. The quality of the water purification system and the resultant purity of the water used in skincare products will in part determine whether preservatives and additives are needed to overcome the impurities introduced through poor quality water.

Cyclomethicone and Dimethicone - An organic skin protectant that seals in moisture and provides longer persistent properties. Forms a breathable barrier to soothe and protect the skin, and is safe for even the most sensitive skin.

Capric/Caprylic Triglyceride - A rich fatty acid made from natural sources by combining glycerin with caprylic acid and capric acid; a superb emollient and moisturizer; softens and smoothes the skin by attracting moisture.

Glyceryl Stearate - A natural emulsifier rich in essential fatty acids.

Cetearyl Glucoside - A natural emulsifying wax extracted from corn and coconut; known to be mild and non-irritating.

Glycerin - A natural humectant from vegetable sources that creates a luxurious slip and feel to skincare and haircare products; provides excellent hydration and moisturization of the skin and hair; synthetic glycerin can be irritating to the skin and should be avoided.
